Gulfport-Biloxi International Airport

Art Program

Artist Marlin Miller to Unveil Exhibit

Gulf Coast award winning wood sculptor Marlin Miller is scheduled to unveil a few of his latest creations at the Gulfport-Biloxi International Airport on Wednesday March 10, 2010. Marlin's exhibit will be installed in the glass display cases on the second level of the terminal facility just beyond the security checkpoint. The exhibit will consist of wall hangings, framed photos, and several of Marlin's unique wood sculptures. "The Airport Art Program allows for a means to showcase and educate visitors and locals on the artistic development of the MS Gulf Coast," said Airport Chairman Richard Matheny. "Marlin Miller's amazing work on the MS Gulf Coast is perfectly aligned with the purpose and intent of our Airport Art Program." The install of the exhibit is expected to be completed by noon on Wednesday.
