LARGE HANGAR SITES

Gulfport-Biloxi International Airport has three large hangar shovel-ready sites available for lease. The sites are approximately two miles from Interstate 10, two miles from the Port of Gulfport and have ramp and airfield access.

Sites include Mississippi Power electric lines (primary and secondary feed), and access to a 9,000 ft runway, air traffic control and a first-class FBO, Million Air.

SMALL AIRCRAFT HANGARS

T-Hangar bays are currently available for lease at Gulfport-Biloxi International Airport in addition to small, shovel-ready box hangar sites.

The hangar sites and T-hangars are located approximately two miles from Interstate 10, two miles from the Port of Gulfport and have ramp and airfield access. They include Mississippi Power electric lines (primary and secondary feed), Centerpoint natural gas, and access to a 9,000 ft runway, air traffic control and a first-class FBO, Million Air.

T-hangar bays vary in square footage from 1,120 sq ft up to 1,560 sq ft. Built in the new General Aviation taxilane area, they are suitable for single or multi-engine aircraft, including experimental or homebuilt aircraft. T-hangar bays feature 42 ft wide electric bi-fold hangar doors for ease of use.
